

Glen Oaks Village Owners, Inc.

SECURITY CAMERA Registration & Rebate Form

The Glen Oaks Village Board of Directors and Security Department works very closely with NYPD and crime prevention in our community. Keeping track of security cameras in the community allows us to quickly determine if cameras are nearby crime scenes which can be helpful in stopping and apprehending criminals. To encourage Shareholders to install security cameras, the Board of Directors has created the **VIDEO SECURITY CAMERA REBATE PROGRAM WHICH WILL REIMBURSE YOU THE FULL COST OF EACH CAMERA, UP TO \$100.** This rebate applies to each outside facing camera, up to two cameras, that you install in your apartment. The process is simple. Purchase and install a video security camera(s) that faces the outside and bring your receipt with this form to the management office. After the installation is inspected from outside your unit, a Security Camera(s) Rebate check will be mailed to you. To be in compliance with our house rules, ***ALL security camera installations, whether you participate in the rebate program or not, must be registered with the management office by completing this form.*** Security cameras that are not registered are subject to a \$100 house rule violation.

SECURITY CAMERA REBATE AND REGISTRATION INFORMATION:

Since shareholder maintenance covers the cost of this rebate program, only shareholders are eligible to participate. Below are some of the more popular security camera choices, but all security camera systems are eligible for the rebate program. Security cameras can be mounted outside or inside your apartment and cannot be unreasonably directed towards another apartment. For an easy interior window ledge installation, the company WYZE (wyze.com) makes security cameras that are very inexpensive and work very well and this rebate will likely cover the entire cost.

To apply for the rebate or to register your outdoor facing security camera, please complete the form below and submit it to Alteration Services. For questions, please call 718-347-2337; E-mail: Alterations@govo.net. Depending on workload, maintenance may be able to handle non-complicated **exterior** installations. Prior to contacting Maintenance, please confirm the device is active on your home network.

Shareholder Name: _____ Date: _____

Camera Address: _____ GV# _____

Home Phone: _____ Cell Phone: _____

E-Mail: _____ # of Cameras: 1 ___ 2 ___
